

# End-to-End Project Solutions

**Expert Geosynthetic Installation.  
Projects done right. On time. On budget.**

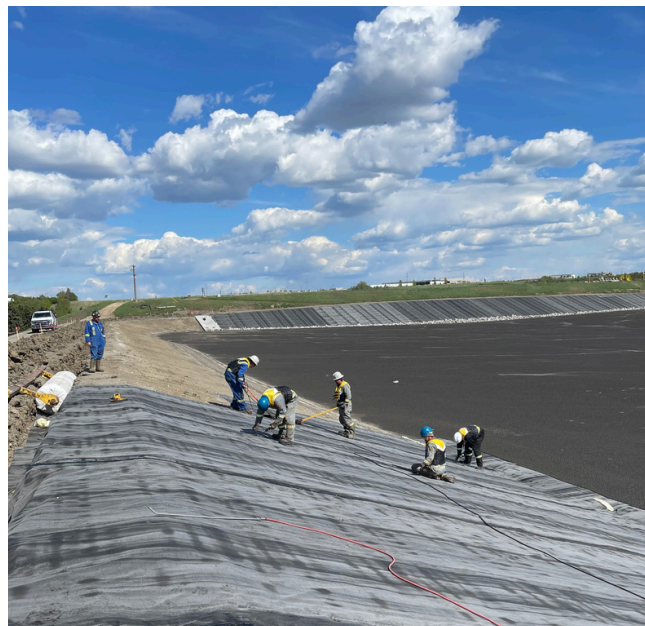

**TITAN**

BUILD YOUR LEGEND

# Who We Are

## Experience you can count on - from concept to completion.

Titan delivers installation and specialty geosynthetic solutions with the discipline of a self-perform contractor and the care of a trusted partner. With over 1,200 successful installations worldwide and more than 4 million m<sup>2</sup> of material installed annually, our teams bring unmatched experience, rigorous installation standards, and a relentless commitment to safety. As an IAGI Approved Installation Contractor (AIC) in North America, we combine superior qualifications, field-tested expertise, and transparent communication to ensure every project is delivered on scope, on schedule, and on budget—so owners, engineers, and contractors can build with confidence.

## What We Do

### Pre-Design

Optimize performance and reduce costs through tailored design recommendations.

### Fabrication

With facilities in Canada and the US, Titan offers custom geomembrane and geotextile fabrication.

### Installation

Trusted expertise backed by 300+ years of combined experience and industry-leading safety standards.

# The Titan Advantage

Titan meets OSHA, MSHA, and CSA standards, delivering projects with uncompromising safety and compliance across North America.

## Industry-Leading Installation Standards

At Titan, we believe performance depends on proper installation. That's why we maintain some of the highest installation standards in the industry. With over 1,200 successful installations worldwide, our accurate, transparent, and easy-to-read quotes ensure there are no hidden surprises. When you choose Titan, you're working with one of the best geosynthetics installers in the industry.

## Superior Qualifications

As an IAGI Approved Installation Contractor (AIC) in North America, Titan demonstrates excellence in safety training, insurance verification, professional competence, and experience. Our team maintains a high ISNetworld rating and invests in ongoing training to stay current with the latest methods and technologies. Our field welders are IAGI-certified technicians, proficient in both wedge and extrusion welding across a variety of geomembrane materials.

## Superior Capabilities

No project is too big or small. With bonding capacity for the largest projects and mobile crews ready to deploy worldwide, Titan delivers on time and on budget. Our streamlined quality control system and

comprehensive project management guarantee top-quality workmanship and attention to detail. We also offer in-house fabrication of custom panels to meet unique project requirements.

## Superior Experience

Experience matters. Titan installs more than 4,000,000 m<sup>2</sup> (43,055,600 ft<sup>2</sup>) of material annually and has completed hundreds of large-scale, technically complex geosynthetics projects across North America. Together, our management team and crews bring over 300 years of combined industry experience.

## Superior Safety

Safety is non-negotiable at Titan. We consistently lead and exceed safety standards, with daily site meetings and a strong corporate safety program. Our team maintains COR certification and receives ongoing training in First Aid, Hazard Assessment, Fall Protection, Confined Space Entry, and other site-specific safety requirements. Titan's excellent track record reflects our unwavering commitment to safety at every level.

# How We Deliver

## A clear path from plan to hand-off

With Titan's unmatched installation capacity and North American fabrication capabilities, we deploy multiple specialized crews in parallel, accelerate lead times, and keep your projects on schedule. You get one accountable team coordinating materials, prefab panels, equipment, and documentation—so scopes stay aligned, schedules hold, and hand-offs are clean.

- Assess
- Design-assist
- Procurement
- Field installation
- QA/QC
- Close-out

## What that means for your project:

- Multi-crew mobilization for faster, predictable installs.
- Regional yards and deep inventory to reduce delays.
- Dedicated Project Manager with transparent updates and issue tracking.
- Comprehensive QC/QA package, welding logs and as-built drawings.
- Prioritizing safety with task-specific JHAs and a fully integrated Project Safety Plan.

**Titan Environmental supplies proven geosynthetics and specialty civil engineering construction solutions designed to extend the life of vital infrastructure while protecting precious natural resources.**

We push limits with creative solutions. Our product lines include geomembranes, geotextiles, geogrids, primary & secondary containment systems, stormwater management solutions, drainage solutions, MSE wall & slope systems, and erosion & sediment control products. We service the road construction, agricultural, waste management, water resources, mining, oil and gas, and hydroelectric industries that support essential infrastructure worldwide. By providing engineers with a resilient foundation for building better, we've become North America's fastest-growing-end-to-end geosynthetics supplier, fabricator and installer.

We do more than help manage environmental impact, we help improve how that's done. With a team of audacious innovators and agile problem-solvers, we're trusted to adapt to change, respond quickly, and support you at every stage. When you build with Titan, you strive for your very best.
